Ford Early V8 Specifications Page - Macs Auto Parts

Ford trucks were updated in 1940 as 1/2-ton trucks took on car styling for the first time in almost 10 years. Ford also produced its 28-millionth vehicle in 1940. For 1940, 1/2-ton pickups adopted the look of that year's Standard-series cars -- the first time since 1932 that trucks shared car styling.

1940 Ford Trucks | HowStuffWorks

The Flathead V8 engines produced by Ford Motor Company included basically three versions. The most popular being the 85-125hp that was first produced in 1932, and continued until 1953 (except for Canadian and Australian production which ended in 1954). Ford also designed and produced a smaller 60hp flathead V8 engine from 1937 until 1940.

Ford Flathead V8 Specifications - VANPELT SALES

Late 1937 and newer model year vehicles had the newer and more conventional "all cast iron" blocks. 1940 was the final year for the 60hp since the new 90hp six cylinder engine would debut for 1941. The V8 Sixty was a popular engine for aftermarket applications, particularly in midget race cars in the 1950's and 60's.
