The free Kindle books here can be borrowed for 14 days and then will be automatically returned to the owner at that time.

Android Developer Style Guide

Styles and themes on Android allow you to separate the details of your app design from the UI structure and behavior, similar to stylesheets in web design. A style is a collection of attributes that specify the appearance for a single View. A style can specify attributes such as font color, font size, background color, and much more.
