Applied Conjoint Analysis | Vithala R. Rao | Springer

This is an elaboration of Example 2 in this chapter. Let us call the three sandwich options as Sandw A, Sandw B, and Sandw C. Similarly, let us call the side order as Sideo A, Sideo B, and Sideo C and the drink options as Drink A, Drink B, and Drink C. First, the nine meal combinations (1/3 of the 3 3 factorial design) can be constructed using a Latin Square design as follows:

Choice Based Conjoint Studies: Design and Analysis ...

Applied Conjoint Analysis Vithala R. Rao (auth.) Conjoint analysis is probably the most significant development in marketing research in the past few decades. It can be described as a set of techniques ideally suited to studying customers' decision-making processes and determining tradeoffs.

Applied Conjoint Analysis | Vithala R. Rao (auth.) | download

The conceptual model of conjoint analysis is quite straightforward; it postulates that the utility of a multi-attributed item can be decomposed into specific contributions of each attribute and possibly their interactions. The approach is easy to implement if the number of attributes is small.

Vithala R. Rao

This paper presents a novel embedded feature selection approach for Support Vector Machines (SVM) in a choice-based conjoint context. We extend the L1-SVM formulation and adapt the RFE-SVM algorithm to conjoint analysis to encourage sparsity in consumer preferences. This sparsity can be attributed to consumers being selective about the attributes they consider when evaluating alternatives in ...

Embedded heterogeneous feature selection for conjoint

...

Abstract. We identify gaps and propose several directions for future research in preference measurement. We structure our argument around a framework that views preference measurement as comprising three interrelated components: (1) the problem that the study is ultimately intended to address; (2) the design of the preference measurement task and the data collection approach; (3) the

Beyond Conjoint Analysis: Advances in Preference ...

Methodology and Computing in Applied Probability publishes high quality research and review articles in areas of applied probability that emphasize methodology and computing. The journal focuses on articles that examine important applications and that include detailed case studies.
