Directed by Penny Marshall. With Robert De Niro, Robin Williams, Julie Kavner, Ruth Nelson. The victims of an encephalitis epidemic many years ago have been catatonic ever since, but now a new drug offers the prospect of reviving them.

## Awakenings (1990) - IMDb

Awakenings is a 1990 American drama film based on Oliver Sacks's 1973 memoir of the same title. It tells the story of a fictional character, neurologist Dr. Malcolm Sayer, who is based on Sacks and played by Robin Williams. In 1969, he discovered beneficial effects of the drug L-Dopa. He administers it to catatonic patients who had survived the 1917–28 epidemic of encephalitis lethargica.

Penny Marshall's medical drama *Awakenings* (1990) is a profoundly moving film. I find it captures the belief in medical science that doctors should aspire to, but more so relating to their patients' suffering and condition. Marshall bravely represents a lost portion of society that have been left to die catatonic and hopeless in hospitals.

## **Awakening | Definition of Awakening at Dictionary.com**

Awakenings--which inspired the major motion picture--is the remarkable story of a group of patients who contracted sleeping-sickness during the great epidemic just after World War I. Frozen for decades in a trance-like state, these men and women were given up as hopeless until 1969, when Dr. Oliver Sacks gave them the then-new drug L-DOPA, which had an astonishing, explosive,
