Concise Pathology - Para Chandrasoma, Clive Roy Taylor ...

The study of pathology is traditionally divided into general and systemic pathology, and we preserve this distinction. In the general pathology chapters (Part A), the pathologic changes occurring in a hypothetic tissue are considered. This idealized tissue is composed of parenchymal cells and interstitial connective tissue and is the prototype of every tissue in the body.

At our medical school Robbins basic pathology is the recommended text and I was very skeptical before starting this book. But believe me this book is really nice and I excelled in my pathology class reading this text only. No robbins for me. This book is what it says- Concise, but also what it does not say- Relevant, succint and crammable.
