manual or an automatic car. Not everyone's a fan of using a manual transmission. Many people actually find driving in an automatic a lot easier.

### **Book automatic driving lessons online | AA Driving School**

At its simplest, driving an automatic car or van simply means placing your left foot firmly on the floor and then forgetting all about it. You then brake and accelerate with your right foot. To start driving, you put your right foot on the brake pedal, move the gearlever to Drive if you want to go forward or Reverse if you want to go backwards.

### **How to drive an automatic car - Saga**

When starting the automatic transmission car, there is something that drivers should remember. When the engine is off, the lever should be in the letter P. And to turn it on, car owners can push the brake pedal and use the key for the ignition. Remember to shift the gear to the D and release the brake.

### **7 Things To AVOID While Driving An Automatic Transmission Car**

To drive a semi-automatic car, turn the key in the ignition and hold down the brake pedal as you switch the gearshift to manual transmission. Then, put the car in drive and begin driving as you normally would. As the car picks up speed, move the gearshift towards the plus sign to increase the gear.

### **How to Drive a Semi Automatic Car: 11 Steps (with Pictures)**

Driving an automatic car can be strange to begin with, but study your vehicle, practise driving and learn to anticipate the need for the early release of the gas pedal, and progressive braking. Remember, slowing down to take a turn or bend in the road can trick the transmission into changing down a gear as you approach.

### **Driving an Automatic Car | Driving Test Success**

Its to be noted that driving Automatic is almost as good as what Manual Transmission is, you get the same steering, same brake, same accelerator. Only thing changed is Gear Box and to offer in convenience is no Manual Clutch Option given as gears are changed Automatically with the increase and decrease in Speed.

### **Automatic Car Driving Tips and Guide for Manual ...**

Unlike driving manual, the automatic transmission requires less work on the part of the driver. The automatic transmission changes the gears on its own, without input from the driver. Automatic transmissions used to be a luxury upgrade, but now it is much rarer to find a driver that knows how to drive a stick shift car.
