CELECT Plus has an advanced electronic control module (ECM) that provides enhanced customer features, improved engine controls, including automotive-style cruise control Higher fuel efficiency. With more advanced electronic engine controls and hardware improvements, N14 Plus engines deliver more miles per gallon

N14 Plus | Cummins Inc.

The N14 Celect was the first Cummins engine to feature an electronic injection system. The Celect fuel system produces systematic pressure throughout each injection cycle unlike the common rail fuel system of the 855, or older M11 or L10 models. Albeit the injectors are still cam actuated the ECM controls the metered flow of fuel to the injectors.
