Long-term psychodynamic psychotherapy. Our psychodynamic psychotherapy sessions offer weekly one-to-one therapy, with each session lasting 50 minutes at our London Bridge centre. The duration of the therapy can be discussed with the therapist. These regular sessions provide an opportunity to explore recurring patterns of behaviour, especially in relationships, which may be repeated in the consulting room.

Change in defense style predicts symptomatic change, but causation has not been established. The effectiveness of psychodynamic psychotherapy for ameliorating symptoms of mental illness has been demonstrated (1 - 3), but there have been few studies demonstrating dynamic changes over the course of long-term psychotherapy (1, p. 14).
