Portraits in Blood. These black and white images originate in my desire to image, as well as imagine, my community. In the selected photographs from "Portraits in Blood," I investigate my Aboriginal heritage by photographing Native women in the Winnipeg community. Prior to this point, I had not self-identified as an Aboriginal person. As I have said of this series, "In my early twenties, I decided to investigate my native heritage by making portraits of native women.

Portraits in Blood (1990-1992) | Rosalie Favell

The blood portraits explore the use of constitutes parts of blood, primarily hemaglobin, iron and copper salts, and natural pigments, as a medium for printed portraiture. It represents a Postdigital approach to printmaking that examines the interplay between analog, mechanical, and digital image making and the biological form as both subject and medium.

This is a colour photograph showing a close up view of a young woman's face dripping with blood. It is one of a group of images that document an action in which the artist posed for the camera with blood trickling down her face and neck into the neckline of her white cotton top. In this photograph her head is tilted backwards so that the camera looks into her bloodied nostrils.

Cliveden Blood Portrait. Cliveden, or the Benjamin Chew House, is one of the bloodiest battle scenes of the American Revolutionary War, but it also home to a lesser-known antiquity—a woman's portrait hauntingly painted in the blood of a dying British soldier. Located in the Germantown suburb of Philadelphia, Pennsylvania, Cliveden was built by the Chew family between 1763 and 1767 in an attempt to avoid the yellow fever outbreaks that plagued the city.
