(PDF) A Textbook of Refrigeration and Air Conditioning By ...

The main difference between refrigeration and air conditioning is that refrigeration, in general, refers to any process where thermal energy is taken away from a place and transferred to a place with a higher temperature. Air conditioning is a type of refrigeration where thermal energy is taken away from the air (typically in a room or a vehicle) in order to keep the air cooler. What is Refrigeration

Difference Between Refrigeration and Air Conditioning

5 reviews of California Refrigeration & Air Conditioning "This is my first official Yelp review, and I was moved to write it because of the excellent service we received from Miky/California Refrigeration & Air Conditioning. My husband and I are renovating our home and swapped out our old Honeywell thermostat for a new Smart Wifi one. It didn't work properly with our existing (ancient) unit so ...
