The rifts caused by inequality could be gravest between the generations, with Guillen arguing that it is increasingly unlikely that children today will enjoy a better life than their parents. He cites the COVID recession coming so hot on the heels of the financial crash of 2008 as an example of the rough ride Millennials have enjoyed in the ...

Preparing Ourselves For What Comes Next | The Horizons Tracker

This webinar discussed how migration, immigration status, culture and trauma impact the physical, brain and emotional development of children who are victims of sexual assault and child abuse and the special needs of immigrant and refugee child victims. There are multiple forms of immigration relief that have been designed to offer protection for children who...

The world has changed radically since the emergence of official development assistance and since the aid agency was invented. How should aid change? Aid is by no means the only source of financing for development in today's world. Yet for the poorest countries, aid is a vital source of government finance. Aid helps fund critical social services and may catalyze [...]
