### S O A P Documentation

Include the patient's age, sex, and concern at the top of the note. At the top of your note, write down the patient's age and sex. Along with age and sex, write the patient's concern or why they came in for treatment. This can help other medical professionals get an idea of diagnoses or treatments at a glance.

### How to Write a Soap Note (with Pictures) - wikiHow

The SOAP note is a method of documentation employed by healthcare providers to write out notes in a patient's chart, along with other common formats, such as the admission note. Documenting patient encounters in the medical record is an integral part of practice workflow starting with appointment scheduling, patient check-in and exam, documentation of notes, check-out, rescheduling, and medical billing. Additionally, it serves as a general cognitive framework for physicians to follow as they ass

### SOAP note - Wikipedia

This guide discusses the SOAP framework (Subjective, Objective, Assessment, Plan), which should help you structure your documentation in a clear and consistent manner. You might also find our other documentation guides helpful.

### How to Document a Patient Assessment (SOAP) | Geeky Medics

Today, the SOAP note – an acronym for Subjective, Objective, Assessment and Plan – is the most common method of documentation used by providers to input notes into patients' medical records. They allow providers to record and share information in a universal, systematic and easy to read format.

### How SOAP Notes Paved the Way for Modern Medical Documentation

SOAP notes were first developed in 1964 as a means of providing accurate records of a patient's history, case details, prognosis, treatment and results. Through the use of each of the four areas in this record-keeping method, a social worker documents initial problems, steps taken to resolve the problem and the final results of these treatment steps.
