Ecology and Environmental Science | SimBio

We developed many of our labs with introductory and non-majors courses in mind. These modules provide an effective, inexpensive, and easy-to-implement option to provide engaging simulated laboratory experiences for topics that are not generally amenable to wet lab experimentation.

While all of our modules have some open-ended exercises, the labs below are more directed.

SimBio Modules for Non-Majors Biology | SimBio

Simbio Nichewars. This report discusses an experiment to study the relationship between the ecological niche and competition. The hypothesis formulated states that if competition traits are identical and resources are abundant than multiple species will be able to coexist, and if one species has an advantage over the others than this species will be more likely to out compete another species for resources.
