Fixed effect estimation indicates that market size, trade openness, interest rate and human capital yield significant coefficients in relation to FDI inflow for the panel of developing countries under study. The findings reveal that market size is the most significant determinant of FDI inflow.

Determinants of foreign direct investment in developing ...

The upsurge of Chinese and Indian outward foreign direct investment (FDI) raises an unanswered question about locational determinants of direct investment from the two countries. Using an unbalanced bilateral FDI database, we find that Chinese and Indian FDI are attracted to countries with large market size, low GDP growth, high volumes of imports from China or India, and low corporate tax rates.

A Panel Data Analysis of Locational Determinants of ...

Determinants of Foreign Direct Investment: A Panel Data Analysis of the 24 Emerging Countries Author (s) Nusrat Jahan Abstract. The world economy has witnessed a boost of Foreign Direct Investment (FDI) inflows across different countries which are the most visible sign of globalization. FDI has grown at an exceptional rate since 1980s.

Determinants of Foreign Direct Investment: A Panel Data ...

Determinants of Investment: Inducement to invest or investment demand depends upon two factors: (1) Expected rate of profits to which Keynes gives the name Marginal Efficiency of Capital, and, ADVERTISEMENTS: (2) The rate of interest. It can be easily shown that investment is determined by expected rate of profit and the rate of interest.
