The Engineering of Consent. The Engineering of Consent. Bv EDWARD L. BERNAYS. FREEDOM of speech and its demo- cratic corollary, a free press, have tacitly expanded our Bill of Rights to include the right of persuasion. This development was an inevitable result of the expansion of the media of free speech and persuasion, denned in other articles in this volume.

The Engineering of Consent - University of California, Los ...

In 1947, Sigmund Freud's nephew Edward Bernays published an essay entitle "The Engineering of Consent.". Bernays defined "the engineering of consent" as the art of manipulating people, specifically Americans, whom Bernays described as "fundamentally irrational" and not to be trusted. Undisciplined, non-intellectual, and amoral people (Bernays claimed) are vulnerable to influences of which they are not even aware and accordingly are highly susceptible to want things they do not ...
