Librivox.org is a dream come true for audiobook lovers. All the books here are absolutely free, which is good news for those of us who have had to pony up ridiculously high fees for substandard audiobooks. Librivox has many volunteers that work to release quality recordings of classic books, all free for anyone to download. If you've been looking for a great place to find free audio books, Librivox is a good place to start.

Starting at 20W with an 8" speaker in the BC20 and running all the way to the 300W, 15"-powered BC300, these amps deliver excellent Warwick sound in a format that's easy to stash in the trunk and zip across town to a club gig or band rehearsal. Warwick doesn't have a massive selection of bass amplifiers - because they don't need to.

Warwick Bass Amplifiers | Musician's Friend

Yes, you can crank it up loud as you want, the DDL controls all distortion and provides speaker protection. But like any amp, you have to also use your ears to learn how the amp and your particular bass work together. For example, if it's sounding stressed, try turning down the bass EQ control a little.

en/Warwick---Support--FAQ--Amps.html

Nobody replied on 3 forums..I called Warwick, actually Dana B Goods, the Warwick distributor in Cal..their tech, a very nice interesting courteous guy, had NO specs either. he emailed Warwick-we'll see if they get an answer. the cab has been around for 3 years..I thought at least one of the german bassists would have piped in by now.
